Mr. Henry Peck was asked by a neighbor if he believed in woman suffrage, says The Louisville Times. "Who me?" gasped Mr. Peck. "Gracious, no!"

Bent on making a convert of Mr. Peck, the neighbor proceeded to argue the question.

"Now, just give me one reason why women should not be given the ballot, if you can."

"Well, my good sir," answered Mr. Peck, "I don't care to discuss the issue with you, but I will say this: I find it had enough to explain politics to my wife, and I do not care to place her in a position where I would be compelled to have them explained to me—from the woman's viewpoint."

"Well, what difference would that make?" the neighbor insisted "you would."

"Safety first," snapped Mr. Peck "that's all."

Poor Man. "Do animals possess the sentiment of affection?" asked the teacher, according to The Literary Digest.

"Yes, ma'am, almost always."

"Correct," said the teacher. Turning to young Harold: "And now tell me, what animal has the greatest natural fondness for man?"

With a slight pause the little fellow answered: "Woman."

HOW "TIZ" HELPS SORE, TIRED FEET

Good-bye sore feet, burning feet, swollen feet, sweaty feet, smelly feet, tired feet.

Good-bye corns, callouses, bunions and raw spots. No more shoe tightness, no more limping with pain or drawing up your face in agony. "TIZ" is magical. It's right off. "TIZ" draws out all the poisonous exudations which pull up the feet. Use "TIZ" and forget your foot misery. Ah! how comfortable your feet feel. Get a 25 cent box of "TIZ" now at any drugist or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. 7 years' foot comfort guaranteed or money refunded.

GOOD MEETING HELD AT BELTON YESTERDAY

SEVERAL VERY INSTRUCTIVE TALKS BY OFFICIALS OF CLEMSON

WELL ATTENDED

People Showed Much Interest and Affair Great Success From Every Standpoint.

A meeting of the farmers, business men, and their families was held at Belton yesterday and about 100 interested people were present. The day was given over to speech making and home demonstration work.

The first speaker was Prof. R. L. Shields chief of animal industry at Clemson College, his speech being about raising live stock, marketing, etc. His address was very interesting as well as instructive.

The next man to speak was Prof. D. W. Watkins of Clemson College, who discussed dairying and creamery routes. This is a subject that the people in general are taking much interest in at the present time and his remarks were well received.

Prof. T. F. Niven, horticulturist at Clemson, spoke next on orchards and gardens. Many ladies were present and took much interest in his speech.

Prof. T. H. Senn of Clemson College made an address about winter cover crops. He told the farmers that soon the present crop would be harvested and out of the way, but asked them not to forget that their land ought to have some kind of cover crop this winter, and urged all of them to give this matter serious thought.

Miss Maggie Garlington had charge of the home demonstration work and gave a demonstration of the fireless cooker. Miss Garlington is recognized to be one of the best home demonstration agents in the state and she has added much to the instructive features of the meetings held in this county this summer.

SAYS TEMPERAMENT IS HEREDITARY

Dr. C. B. Davenport of Carnegie Institute Declares Temperament is Unalterable.

Boston, Aug. 18.—The August number of the Proceedings of the National Academy of Sciences contains an article on the inheritance of Temperament, by Dr. C. B. Davenport, of the Station for Experimental Evolution, Carnegie Institution, Washington. In which are disclosed the results of statistical study into the cases of 89 carefully described family histories.

Temperament is hereditary and as little alterable as stature, says Dr. Davenport, and in seeking to explain the great diversity in temperaments he makes the hypothesis that there are involved in the inheritance of temperament two factors; one which induces more or less periodic excitability whose absence results in calmness, another which makes for normal cheerfulness and whose absence permits more or less periodic depression, these factors being inherited independently and occurring in any combination. Persons may be divided into calm, nervous, or choleric according to their degree of excitability, and into cheerful, phlegmatic, and melancholic according to their degree of cheerfulness or its opposite, and there were then, nine classes of temperament formed by combining these two classes, namely, choleric-cheerful, choleric-phlegmatic, choleric-melancholic, nervous-cheerful, nervous-phlegmatic, and so on.

The statistical study of the 89 carefully described family histories seems to bear out Dr. Davenport's hypothesis, because the different classes of temperament actually occur with about the relative frequencies which would be expected from the hypothesis and the usual laws of inheritance.

Woman After the War.

(From Richmond Times-Dispatch.)

Aside from the question of suffrage, which has nothing to do with the thoughts that follow, there is one indisputable fact; woman will have more influence in Europe when the war is over than ever before.

At the rate at which men are being slaughtered there won't be any surplus if the war lasts another year. This will bring about a different sort of woman's movement in Europe than they have had. And it will be a stronger movement. The women of the warring nations, by force of circumstances, have already shown themselves to be capable in business and have done much which will forever entitle them to the consideration of men who think and direct.

But the sort of woman influence that will grow in Europe, especially in England and France, will not be of the feminist type. On the contrary, the women who are doing so much in this war will be competent and willing to do more when the war is over.

When this movement shall amalgamate with the woman movement of our country, the world won't be any the worse, and it won't require field glasses to get a glimpse of what some folks call the millennium.

MEETING PROPOSING WILLIAMSTON COUNTY

SUCCESSFUL MEETING WAS HELD YESTERDAY AFTERNOON

MUCH ENTHUSIASM

Was Shown and All But One Out of 200 Voted in Favor of New County.

Two hundred representative citizens of Anderson and Greenville counties met in the town hall at Williamston yesterday afternoon at 4 o'clock for the purpose of discussing the question of establishing a new county out of parts of the above two named counties, Williamston to be the county seat. Out of the 200 present 199 voted as being in favor of the proposed new county.

Owing to the fact that the meeting had not been advertised very much, the attendance was not as large as it might have been but those present showed much enthusiasm for the new county. Representatives were present from as far over as the Reedy River section in Greenville county. Many were also present from Brushy Creek section in this county.

Directly after the meeting was called to order the chairman called for a vote on the question, which resulted as stated above. Several talks were made and much enthusiasm aroused, especially by those from Greenville county.

This meeting was held for the sole purpose of feeling the sentiment of the people but plans were made by which many preliminary matters will be looked into and another meeting was called for August 28, which will be held in the park. All who are interested in the proposed county, whether for or against it, are urged to be present on that date.

EDUCATIONAL RALLY FLAT ROCK SCHOOL

Will Be Held on August 26—Several Prominent Speakers Will Make Addresses.

The people of the Flat Rock section are planning a great educational rally to be held on August 26. The meeting will be in the form of a picnic and will be held on the grounds of the Flat Rock schoolhouse and all are urged to attend and bring well filled baskets.

Among the speakers of the day will be W. W. Long, who has charge of the state demonstration work at Clemson College. Dr. Edwin M. Potent, president of Furman University; J. C. Bailey, pastor of Carmel church; Prof. E. B. Gunter, state inspector of rural schools, and Mr. E. P. McCravy of Easley.

A special invitation is issued to the old pupils of John L. Kennedy.

Drink More Water If Kidneys Bother

Eat Less Meat and Take Salts for Backache or Bladder Trouble.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it is no longer a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful, effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

The Clerk Guarantees It.

"A customer came into my store the other day and said to one of my clerks, 'have you anything that will cure diarrhoea?' and my clerk went and got him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and said to him, 'if this does not cure you, I will not charge you a cent for it.' So he took it home and came back in a day or two and said he was cured," writes J. H. Berry & Co., alt Creek, Va. For sale by all dealers.

NOT AN ISOLATED CASE.

Many Similar Cases in Anderson and Vicinity.

This Anderson man's story given here is not an isolated case by any means; week after week, year after year, our neighbors are telling similar good news.

W. H. Smith, farmer, 54 E. Orr St., Anderson, says: "I was almost frantic with pains across the small of my back. When I was picking cotton, a sharp pain would often catch me in the small of my back and I would have to brace myself in order to straighten up again. The kidney secretions passed too freely and they were scanty and burned in passage. The secretions were highly colored, too and looked like brick-dust. I had suffered for a couple of months when I read of Doan's Kidney Pills and got some at Evans' Pharmacy. The first few
